Off the main square, palm-lined Place D'Armes, there are some particularly fine French colonial buildings, especially the Government House and the Municipal Theatre, both built in the 18th Century. The 60-acre garden boasts 500 different species of plants, of which 80 are palms. Of particular interest are the giant water Lilies locally known as 'Flan Tins' (Victoria Regia), a spice garden and the Talipot Palms, said to flower once every 60 years after which they die. Pamplemousses also features plants from all over the world - wild bananas, camphor trees, clover and nutmeg trees from Manila and there is also an art gallery and a cemetery.</p> <p>Dinner at Hotel.
